STEVE HODGES  
710 NORTH 100 WEST  
BEAVER UT 84713

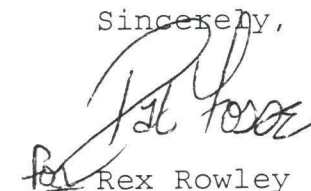

Dear Mr. Hodges:

On February 2, 1999, Larry Garahana of my staff spoke with Tom Munson of Utah Division of Oil Gas and Mining concerning your Amazon #6 claim, located in Section 14, T. 23 S., R. 13 W., and referenced by UTU-070673. Tom stated you wanted to close your file with the state concerning said claim, and he asked Larry what the disturbance was like at that site. Larry informed Tom that the disturbance was negligible and no reclamation would be required to satisfy BLM standards. Based on this information, we have determined the surface disturbance related to your mining operation is satisfactorily reclaimed. Therefore, this notice case file is closed.

If you restart any mining related activity that causes surface disturbance, then you must re-notify this office at least 15 days prior to the start up of your operations.

Thank you for submitting your notice and for your support in proper management of public lands.

Sincerely,

  
for Rex Rowley  
Field Manager
